CHAMPIONS OF BOER FREEDOM

Ten Pleaders for Independence Are on Way to Peace Conference.

28 DAY TRIP ENDED

Will Lay Their Case Before Lloyd George and Possibly Wilson.

Ten Boers, representing the Nation alist Party of South Africa and on their way to Paris to confront the Peace Conference with the claims of the Union of South Africa to indeence from Great Britain, reached New York yesterday on the Dutch

from Cape Town.

They will lay their case before David
Lloyd George, and if he turns them
down they will appeal to President Wilson, whom they picture as their champion because of his utterances as

to the rights of small nations.

Specifically they will bombard Lloyd
George with this declaration of his:

"No peace is possible until reparation has been made for violated rights and liberties and until the principle of nationalities and the independent exnce of small states is recognized.

Application of Principle.

The Boer delegates figure that this exactly fits the case of the two South African republics annexed by Great Britain after the last Boer war, and indeed the whole of British South Africa. If they reach President Wilson they will remind him that he said "dearly defined national aspirations must be satisfied," and if that doesn't win him to their side they have many para-

praphs from his other speeches to juste from.

The delegation is headed by Gen. J. S. M. Hersog, a Boer war veteran who is leader of the Nationalist party and was formerly Attorney-General and Director of Education and later Minster of Justice of the Orange Riversolony. He and his fellow pilgrims are majacable political foes of Gen. Smuts and Gen. Boths. and Gen. Boths, who are in Paris and will oppose every contention they may

Province; A. T. Spies and E. G. Jansen, Natal; Dr. Guy van Pittius, secretary of the delegation. Most of them are veterans of the Boer war. Mr. Havenga bears the scars of nine wounds.

They are carrying resolutions for national independence adopted at Blosmofentein on January 17 last at a joint congress of the Nationalist party and resolutions to the same effect adopted by party delegations from Cape Colony, Orange Free State, Transvaal and Natal.

Dr. van Pittius was asked if a majority of the population of the union favored independence. He said no vote had been taken and he couldn't say they did, "but anyway they ought to."
